PROFESSIONAL SUMMARY

Mobile app developer with 3+ years of experience designing, building, and shipping **25+ production applications** with **Flutter & Firebase** — spanning utility billing, ISP management, retail POS, personal finance, and AI-powered apps. Owns the full product cycle: UI/UX, architecture, database design, API integration, release, and post-launch support. BSc in Information Technology.

SKILLS

- **Mobile Development:** Flutter, Dart, Android & iOS from a single codebase, Clean Architecture
- **Backend & Cloud:** Firebase (Auth, Firestore, Realtime DB, Cloud Storage, Push Notifications), REST APIs
- **AI Integration:** Google Gemini & OpenAI (ChatGPT) APIs
- **UI/UX Design:** Wireframing, prototyping, pixel-perfect implementation
- **Other:** Python, JavaScript, Git & GitHub

EXPERIENCE

- Freelance Mobile App Developer** — Mosul, Iraq 2023 – Present
- Designed, developed, and shipped **25+ mobile applications** end-to-end for businesses and institutions using Flutter & Firebase.
 - Own the complete lifecycle: requirements, UI/UX, database & architecture design, API integration, publishing, and support.
 - Delivered across multiple domains: utility billing, ISP management, retail POS, real estate, finance, and AI assistants.
- Intern** — Asiacell Telecommunications 2023
- Completed a hands-on internship program at one of Iraq's leading telecom operators.

SELECTED PROJECTS

- Full case studies with screenshots: harithx.dev/#work
- **Mwaled** — Generator billing & subscriber management: registration, payment tracking, and invoicing for electricity-generator operators.
 - **Sahaba** — ISP network & subscriber management system for an internet service provider.
 - **Tafwila** — Digital queue-management system for fuel stations.
 - **Iraqi Mushaf** — Quran reader app faithfully reproducing the 1966 Iraqi print edition.
 - **Orders Hub** — Order management application built for Itqan Advertising.
 - **E-Library, Nineveh University** — Digital library app giving students and faculty access to textbooks, research papers, and journals.
 - **Also:** Spender (personal finance), AI Chatting (ChatGPT & Gemini), Boutique POS (retail), Estate Manager (real estate).
